### Learn More: 5G Devices

Command the rapid speeds of the future with the HTC 5G Hub. Designed for ease of use in both home and office environments, this versatile device enables smooth 4K video streaming, low-latency gaming, and faster networks.

With long-lasting power and Android™ 9 Pie support, the HTC 5G Hub is also made for a wide array of on-the-go situations, harnessing 5G speeds that are dramatically faster than 4G LTE networks.

CONNECT UP TO 20 DEVICES

ALL-DAY BATTERY\*

QUALCOMM® SNAPDRAGON™ 855

ANDROID™ 9 PIE

4K VIDEO STREAMING

PLUG & PLAY ENTERTAINMENT HUB

EASY CORPORATE VPN CONFIGURATION

\*Battery life varies based on usage.

### 5G AT HOME

#### Smooth Streaming of 4K Entertainment

As a home media center, the HTC 5G Hub maximizes 5G speeds to stream 4K videos to a second screen and deliver your favorite content in fluid clarity. It also replaces your Wi-Fi router and removes unnecessary cables for an easy plug-and-play setup.

\*Wired connection required. USB-C adaptor and streaming apps used could impact 4K streaming performance.

## 5G ON THE GO

### Network Mobilization

Don't go anywhere without the convenience and high-speed connection of your 5G network. Whether it's movies at a friend's place, multiplayer gaming, or multimedia conferencing, it's your do-it-all mobile 5G hub.

HTC 5G Hub

### 5G All Day

With a 7,660mAh battery built in, the HTC 5G Hub is made ready to support you on a wide range of on-the-go duties—or adventures.

\*Performance tests are conducted in HTC laboratories using specific HTC devices. Battery life varies by use and settings. Usage, environment conditions, network connectivity and other factors may vary the actual outcome.

## 5G FOR OFFICE

### High Speed Mobility

Mobilize your office network. Designed with the next-generation business environment in mind and with built-in ethernet, the HTC 5G Hub provides fast and convenient access to networks, powering you and your teams to chase opportunities wherever they appear.

### Secure and Scalable

Get high-speed encrypted network connections for up to 20 devices as well as configuration flexibility for a corporate VPN. As your operation grows from a one-person mobile shop or startup to something more, the 5G network is easily scalable via Gigabit internet.

\*Up to 20 connections via Wi-Fi Hotspot. 802.11ad Hotspot has maximum support of 4 connections.

## CLOUD-BASED VIRTUAL REALITY

### Stream Directly Into Your VIVE Headsets

The HTC 5G Hub is created in anticipation of the advancement in Edge computing and developing 5G infrastructure.

In the future, you will be able to stream VR content from the cloud to your VIVE headsets via the HTC 5G Hub—no PC or unnecessary cables required—to enjoy a mobile, high-end VR experience in real time.

\*The above scenario will depend on development of MEC technology and 5G infrastructure.

## Specification

HTC 5G HUB Specification	
Display	5.0 inch Capacitive touch screen HD (720 x 1280 pixels)
Size (length x width x edge thickness) <sup>1, 2</sup>	129 x 100 x 43 mm
Weight <sup>2</sup>	340g
Platform <sup>3</sup>	Android™ 9.0 with HTC Sense™ for HTC 5G Hub
CPU	Qualcomm® Snapdragon™ 855 Octa-core, with Snapdragon™ X50 5G Modem
Connection ports	USB-C 3.1 with DisplayPort support Connections expandable through Gigabit Ethernet
Memory <sup>4</sup>	RAM: 4GB / ROM: 32GB Extended memory: microSD™ (up to 512GB) Flex Storage
Audio	Dual Speakers Always listening
Connectivity <sup>5</sup>	Bluetooth™ 5.0 Wi-Fi 802.11 a/b/g/n/ac/ad Up to 20 Wi-Fi connections
Battery <sup>6</sup>	Capacity: 7,660 mAh Battery management Charging -DC Charging (12V/2.5A) -USB-C (QC 3.0 & PD 9V/2A)
Sensors	Motion G-sensor
Audio supported formats	Playback: .3gp, .mp4, .m4a, .aac, .ts, .flac, .mp3, .mid, .ogg, .mkv, .wav, .amr

<b>Video supported formats</b>	Playback: .3gp, .mp4, .ts, .webm, .mkv
<b>SIM card and Mobile Networking<sup>7</sup></b>	<p>Nano SIM</p> <p>Support up to 2.63 Gbps downlink. Uplink 287 Mbps</p> <p>4G LTE (US)</p> <ul style="list-style-type: none"> <li>· FDD: Bands 2, 3, 4, 5, 7, 8, 12, 13, 25, 26, 66, 71</li> <li>· TDD: Band 41</li> </ul> <p>5G NR Band: n41</p> <p>4G LTE (Australia)</p> <ul style="list-style-type: none"> <li>· FDD: Bands 1, 2, 3, 4, 5, 7, 8, 12, 20, 28, 66</li> <li>· TDD: Bands 38, 41</li> </ul> <p>5G NR Band: n78</p>
<p>Note:</p> <p>1.Thickness of device is measured at the edge of device. Thickness may be different at different parts of device.</p> <p>2.All units of measurement may vary slightly according to manufacturing tolerance.</p> <p>3.Platform may be different after software update.</p> <p>4.Available storage is less due to software. Available storage is subject to change based on software updates and apps usage. Extended memory limited to available microSD card size.</p> <p>5.20 connections are connected through Wi-Fi Hotspot. 802.11 ad Hotspot has maximum support of 4 connections.</p> <p>6.Battery life varies by use and settings. Usage, environment conditions, network connectivity and other factors may vary the actual outcome.</p> <p>7.Network bands and actual upload/download speed vary based on mobile operator and location. 5G NR and 4G LTE only available in select countries and locations.</p>
